

TITUS 5

The **Titus** is an inset **wood burning stove** similar in design to the Trajan model overleaf, however, it is 100mm (4") wider in size allowing for a larger display area.

This stove has a **3 sided black trim** to suit applications where it sits on a hearth, or a **4 sided trim** option (as shown) to allow the stove to be fitted higher up the wall or chimney breast as a hole in the wall effect.

The Titus benefits from a **Tertiary Air System** (this mixes pre-heated air with exhaust gases allowing the exhaust gas to re-ignite producing a cleaner and more efficient stove).

Key Facts:

Nominal Heat Output	5.0 kW
Construction	Steel & Cast-Iron
Weight	80.4 Kg
Flue Outlet	Top (152mm) 6"
Efficiency	80%
Finish	Matt Black
Air Vent Required	No (<i>but refer to manual</i>)
