

VULCAN 8

The **Vulcan 8** is similar in design to its sister, the Juno 5, however, it is deeper in size, enabling it to produce more heat for those requiring a higher output.

The stove boasts a very **wide screen** on the door allowing for a maximum viewing area.

A multi-fuel grate enables the burning of seasoned **wood** and **smokeless fuels**.

The **Vulcan** also benefits from triple burn technology consisting of **Primary Air Burn** (control on door), **Airwash Secondary Burn** (lever above door) and **Tertiary Air** with inlets inside the rear of the stove (this system mixes pre-heated air with exhaust gases allowing the exhaust gas to re-ignite producing a cleaner and more efficient stove).

Edwardian Package Option:

*Edwardian Mantel in Turkish Limestone
Shelf length 1500mm (59") or 1350mm (53")
Heat Resistant Vermiculite Boards
Honed Black Granite Hearth 1450mm (57")
or 1350mm (51") with inset and slip set.*

Key Facts:

Nominal Heat Output	up to 8kW
Construction	Steel & Cast-Iron
Weight	81Kg
Flue Outlet	Top or Rear (150mm)
Efficiency Wood	78.6%
Efficiency Smokeless Fuel	81%
Air Vent Required	Yes
